OBJECTIVE

Aspiring Data Analyst with a Master's degree in Data Science seeking a challenging role to apply advanced data analysis techniques and machine learning algorithms to drive data-driven insights and business value.

EDUCATION

University of Texas

MSc in Data Science.

Arlington, Texas

2024-2026

- Organizations: South Asian Society of Engineers (SASE), Student in Computing and AI (SCAI)

NIIT University

BTech in Computer Science and Engineering.

Neemrana, Rajasthan

2018 - 2022

- Organizations/Awards: Student Council member, Founder of Astronomy club, Volleyball team

SKILLS

Python | Computer Vision | **Image Processing** | **SQL** | **Product Analytics** | **Web Analytics** | Databricks | Spark | Pytorch | ML | AutoCAD | Git | Transfer learning | Unsupervised Learning | Deep learning | Statsig | **Domo** | **Tableau** | **Netspring**

WORK EXPERIENCE (2 Year)

Eucloid Data Solutions Pvt. Ltd

Product Analyst.

Gurgaon, Haryana

November 2023 – July 2024

- **A/B Testing and North Star:** Led successful A/B tests resulting in a 50% increase in the North Star metric. Developed and implemented North Star metrics for multiple LOBs to drive data-driven product decisions
- **Data Analysis and Visualization:** Proficient in Excel, SQL, R, or Python. Analyzed complex datasets to identify trends and insights and created effective data visualizations to communicate findings
- **Product Improvement and Data Governance:** Enhanced user experience by optimizing the homepage and reducing friction points. Adhered to data privacy standards. Managed projects efficiently

Data Scientist.

April 2023 – October 2023

- Proficiently implemented Document AI technology to extract **Unstructured Data** from PDF documents, streamlining the information retrieval process and converting them into JSON Format
- We have demonstrated expertise in leveraging **Computer Vision and Image Processing** to efficiently parse and extract vital information from diverse PDF sources, enhancing data accuracy and efficiency in data-driven workflows

Data Analyst.

July 2022 – March 2023

- **Campaign Activation:** Create and size retargeting, reactivation, and new audience segments, and determine the targeting strategy based on their propensity
- **Data-Driven Optimization:** Utilized Adobe Analytics to identify actionable opportunities for increasing conversion rates in a Fortune 500 organization. Analyzed promotional offers and customer experiences to optimize CX and reduce drop-offs
- **A/B Testing and Analysis:** Conducted A/B tests to evaluate the effectiveness of different marketing strategies and recommendations. Analyzed test results to identify strategies that improved continuation rates

INTERNSHIP EXPERIENCE (6 Months)

Eucloid Data Solutions Pvt. Ltd

Data Analyst Intern.

Gurgaon, Haryana

January 2022 – June 2022

(Award:- Best Recruit of the Year)

- **Predictive Modeling:** Developed and implemented regression models to accurately forecast yearly KPIs, including traffic, RPV, and sales form completions
- **Business Growth Analysis:** Conducted in-depth analyses such as funnel analysis, registration analysis, and drop-off analysis to identify opportunities for driving business growth in a Fortune 500 organization
- **Data-Driven Engagement:** Increased platform engagement by 10% through the development of interactive dashboards for e-commerce and traffic reporting

LEADERSHIP EXPERIENCE

Eucloid Data Solutions Pvt. Ltd

Pre-process & OCR Head.

June 2023 – October 2023

Successfully led and mentored a dedicated team, overseeing the development of **Image Processing** algorithms and OCRs to enhance document quality and ensure output accuracy.

FLP (Future Leaders Program).

June 2023 – October 2023

Selected participant in the prestigious program, engaged in data analytics initiatives within the insurance industry, contributing to insightful data-driven decisions and strategies for enhanced industry performance
